

SHASHI VARDHAN PENTHALA

Full Stack Developer | AIML Engineer

vardhans367@gmail.com | +91 9063531983 | Portfolio | LinkedIn | GitHub

SUMMARY

Detail-oriented AIML Engineer and Full Stack Developer with hands-on experience building scalable web and AI-powered applications using Java, Spring Boot, React.js, Node.js, and Python. Skilled in RESTful API design, machine learning integration, and front-end optimization. Passionate about delivering high-performance, user-centric solutions in agile environments.

TECHNICAL SKILLS

Programming Languages: Java, Python	Frontend: React.js, HTML5, CSS3, JavaScript (ES6+)
Backend: Node.js, Spring Boot, Flask, REST APIs	Databases: MySQL, MongoDB, Supabase, SQL
AI / ML: NLP, Machine Learning, Chatbot Development	Tools & Platforms: Git, GitHub, Vite, Power BI, Tableau, Flutter

PROFESSIONAL EXPERIENCE

SDE Intern — Sophrion *Apr 2026 – Present | Hyderabad, India*

- **Node.js and Express, building RESTful APIs to manage customer data, interactions, and business workflows.** Engineering the backend of a CRM ecosystem using
- Architected and deployed scalable web application hosting infrastructure, ensuring high availability and optimized server-side performance across environments.
- Contributing to full-stack feature development across the CRM platform, including database schema design, API integration, and frontend connectivity.

AIML Full Stack Engineer Intern — Grahmind Innovations Pvt Ltd *Dec 2025 – Apr 2026 | Hyderabad, India*

- **React.js, Spring Boot, Python, and MySQL** Built and maintained scalable AI-enabled web application features using
- Designed and integrated AIML functionalities into full-stack platforms, including an NLP-powered chatbot and a cross-platform Flutter mobile application.
- Collaborated in agile sprints across multiple concurrent projects, contributing to API design, database optimization, and frontend component development.

PROJECTS

Mental-Health AI Assistant (MINO) · Python · NLP · Flask · React.js

- Built a real-time AI chatbot leveraging NLP to understand and intelligently respond to user mental-health queries, simulating empathetic human conversation.
- Developed a Flask REST API backend and integrated a React.js frontend, enabling seamless interaction and efficient data management at scale.

- Implemented context-aware conversation flow to improve session continuity and user experience.

Hostel Management System · Spring Boot · Spring Security · JWT · MySQL

- Engineered a secure, scalable backend using Spring Boot with JWT-based authentication and role-based access control to protect sensitive student data.
- Implemented high-concurrency room allocation and registration workflows, optimizing MySQL queries for real-time throughput under peak load.
- Designed a normalized database schema to support efficient student record management and reporting.

GROVE — Geospatial Travel Platform · Java · SQL · NetBeans

- Architected a high-precision travel discovery platform using Java and SQL for granular geospatial search.
- Delivered optimized, sub-second query performance for complex location-based data retrieval.
- Reduced search latency to sub-second thresholds by indexing spatial data and streamlining query execution paths.

EDUCATION

Malla Reddy University

Jun 2023 – May 2027

B.Tech in Computer Science and Engineering **CGPA: 8.79**

Hyderabad, India

Deeksha Junior College

Completed 2023

Intermedite (SSC Board **Percentage: 92.2%**)

Hyderabad, India

Unicent School

Completed 2021

High School (CBSE Board) **Percentage: 86.5%**

Hyderabad, India

CERTIFICATIONS & ACHIEVEMENTS

- **Infosys:** Certified Artificial Intelligence Primer.
- **NPTEL:** Certified in Software Project Management.
- **Codetantra:** Completed Java and Python programming courses.
- **Smart India Hacakthon:** Led a backend development team in Smart India Hackathon.
- **Pearson English International Certificate:** Completed Level 10 (C1 Advanced Proficiency).
- **AWS Academy Graduate - Data Engineering:** Gained hands-on experience in building data pipelines, managing storage, and optimizing big data workflows on AWS.
- **AWS Academy Graduate – Cloud Foundations:** Developed a strong understanding of AWS core services, security, architecture, and cloud economics.
